Biggest achievement and motivation

Within only 3 years I succeed to create a race in Poland which became a legend in this part of Europe. From only 420 runners in 1st edition of Łemkowyna Ultra-Trail®, we beat 1500 athletes in 3rd edition. Revealing great stories about trail running is knowledge which I want to use during promoting our sport as a Steering Committee member. I see an enormous potential for our sport in East Europe, so I am strongly focused on developing ITRA and its events amongst runners here

Motivation and goals to achieve as national representative

- boosting ITRA development in East Europe which is a big growing market for us organizers
- helping organizers in the region with the quality of their events
- establish more solid and update relations between organizers involved globally
