

Hello everyone!

My name is Lei Yu, a trail runner from China.

Recently, I have been elected as Chinese representative of ITRA.

From 2012, I have finished 6 times HK100 in Europe, I finished TDG, 4KVDA and UTMB, I am the only Chinese runner who completed the UTMB for 3 consecutive years. This year I will take part in UTMB for the fourth time. 2017 May 26th, I completed the French Marseille Diagonale des Fadas competition.

This year, the number of runners in China is growing fast.

Since 2013, I founded the Dalian 100 ultra endurance race, more than 300 races have already been played in China. More and more people will join the trail running in the future, the Chinese market has huge potential and is an important part in ITRA's global strategy.

I was the first one who introduced UTMB points into Chinese races. There are more and more Chinese athletes coming to Europe and around the world to compete.

I am organizing four ITRA points events in China every year: DALIAN 100 ULTRA ENDURANCE RACE, DALI 100 ULTRA ENDURANCE RACE, ULTRA-TRAIL® HUANG SHAN and ULTRA-TRAIL® THREE GORGES. These races, they are famous races in China.

If I am candidated to seat at the ITRA Steering Committee, I will participate in more trail running races around the world, I will also use my experience and knowledge to promote trail running in China and Asia.

I will try my best to publicize the concept, work and achievements of ITRA, Be a messenger for ITRA with Chinese and Asian athletes, Make Chinese and Asian trail running sports under the guidance of ITRA, get better, faster, higher and stronger.

Thank you

Lei Yu
